Attention Anacortes Marina E dock Owners and Tenants

Replacement of the docks and breakwater wall at the Marina is continuing on schedule. For October 2020 we plan to replace all outside slips on E dock, complete replacement of all gangways and continue replacement of the East breakwater.

We plan for E dock construction to last for 4 weeks beginning October 1st. Vessel owners will need to remove their vessel from E dock by September 30th. As the Marina is currently full, we are investigating moorage options to help you relocate your boat. It may be an opportune time to plan for haul out of your vessel.

We will be contacting all E dock tenants and owners to provide additional information on opportunities for dry storage and moorage at other marinas. We look forward to the renewal of E dock and return of all owners and tenants to their slips. Thank you for your patience.
