

Anacortes Marina

Marina Health Notice

As you are all aware, Coronavirus has been spreading in Western Washington and we want to ensure that all members of the Marina family, owners, tenants, employees, sub-contractors and service personnel are doing everything within our power to limit exposure to Coronavirus, flu, and other transmissible diseases.

Just a reminder on a few things:

- If you are feeling ill, please try to do your best to stay home. Take time to recover fully and limit the spread of disease.
- Make sure to take extra precaution while out and about and at the marina property – Wash your hands frequently and for a minimum of 20 seconds with soap each time – remember to clean between fingers and thumbs, backs of hands, and wrists. Use hand sanitizer when you are not able to get to sink with soap and limit your touching of doors, handles, and of course your eyes/mouth/nose.
- Practice good hygiene when coughing and sneezing – always cover cough or sneeze into a tissue or into your elbow, not directly onto your hands.
- Remember to not panic. Taking precautions to fight Coronavirus will also limit the spread of the flu, common cold, and other common illnesses.

The staff of the Marina will be doing the following:

- Wiping down any communal spaces in the office including desks, phones, keyboard, mouse, etc. regularly.
- Thoroughly cleaning any common spaces in the building and restrooms where one may spread germs by touch. This includes elevators call buttons, entry door handles, lobby or common area furniture and surfaces, gate controls, etc. They will be checking and cleaning on a daily basis.

Just remember to stay informed and always follow health and hygiene best practices. This will be a group effort by staff and marina members and we want you, your guests and our staff to be safe and healthy.

Wishing you a Safe and Healthy Boating Season in 2020

If you have any concerns, please feel free to reach out to marina staff directly.
